|  | <p>communication technologies, and includes the formation of knowledge and skills in the language of students, literature of the ancient period and literature up to the present day. It is aimed at understanding and practical application of texts and communication processes. It has grammatical, lexical, phonetic and methodological features and helps students to study the subject more deeply. Through assignments, practical exercises, dialogues and interviews, students' reading, listening, writing and speaking skills are strengthened, as well as the ability to critically analyze media texts and express their thoughts fluently. This manual serves to improve students' professional speech and communicative competence related to reading methodology, and to strengthen their free and effective speaking skills.</p> |
